### DESCRIPTION

Our Magic Sponge erases stubborn stains and marks like never before. No need for detergent: water is all you need to activate the Magic Sponge. Simply dampen the sponge, squeeze it and it will be ready to use. It works wonders on walls, doors, windows, furniture, cooktops, leather and much more. This special sponge is made of Melamine foam polycondensed with Formaldehyde, then dried, shredded, additivated and finally subjected to a specific heat treatment. HOW TO USE: dampen, squeeze and wipe. We recommend to rub gently (no excessive pressure needed).
