DESCRIPTION

PROPERTIES AND BENEFITS

A blend of essential oils with multiple virtues and properties, formulated in our laboratories to contribute to the general well-being of the individual. Designed to act effectively even in very small doses, this synergy of essential oils enhances their respective beneficial effects by blending them in precise concentrations.

Balsamic, expectorant and fluidifying action: useful in cases of colds, stuffy nose and phlegm;

Anti-inflammatory and pain-relieving action: useful to treat muscular and joint problems or localised pain, such as the cervical ones;

Relaxing action: for example, to counteract tension headaches by promoting relaxation of the neck and shoulder muscles;

Disinfectant action: used on the body or diffused in rooms, it is antibacterial and antiseptic;

Refreshing action: useful on the body, during the warm months, or on the face, after shaving, it provides a pleasant sensation of freshness to the skin;

Antispasmodic action: massaged onto the abdomen, it can be useful in cases of cramps;

Energising and toning action: useful to add vitality and relieve feelings of stress, thus providing benefits to the body and to the mood.

DERMATOLOGICALLY TESTED

CPNP REFERENCE: 4828775

HOW TO USE

USE AND PRACTICAL ADVICE

Regenerating bath solution: pour 10 drops into the bathtub water, emulsify by shaking the water vigorously, then soak in for 10 minutes.

Against colds: to obtain a balsamic effect, pour 2-3 drops onto a handkerchief and press it against your nose; alternatively, pour 10-20 drops into a basin of boiling water and cover your head with a towel.

Against muscle and joint pain: for numb muscles and joint pain, treat the painful part with 10 drops of product; also repeat 3 times a day for 2 or 3 days. It can also be used before and after sport activities, massaging arms, legs and feet with a few drops.

Against headaches: massage the temples and the forehead with a few drops.

For hair: helps fight dandruff and gives nourishment to damaged and brittle hair. Pour 5-6 drops onto dry hair, rub gently and comb.

For massage: massage a few drops onto the area to treat for a relaxing effect.

Environmental diffusion: add 6-7 drops to 300 ml of water in the tray of the radiator. Alternatively, mix 200 g potpourri with a few drops, dosing depending on the pleasantness of the result.

Facial cleanser: dilute a few drops in a facial cleanser to restore tone and radiance to the dermis.

Compress: in case of headaches, fever and other disorders characterised by inflammation and heat, mix a few drops with cold/warm water to create a cooling/warming compress and apply to forehead, temples or chest. Wet it again and reapply as the cloth warms up or dries out.

WARNING

Contraindicated during pregnancy, breastfeeding and in children under 3 years of age. Not recommended in cases of convulsive disorders, epilepsy, hyperthyroidism or allergies to essential oils. Avoid prolonged use; do not use within 24 hours before sun exposure as it is photosensitising. For external use only. Do not ingest. Avoid contact with eyes and mucous membranes. If in eyes, immediately rinse with water and get medical attention, if necessary. Before use, perform a test on the crook of the elbow to check the tolerability of the oil. Do not spray inside steam inhalers or nebulisers, to avoid clogging the machinery. Store in a cool, dry place away from heat sources. Any slight colour variation is an indication of the naturalness of the components and does not affect the quality of the product. Do not release into the environment.
