### DESCRIPTION

#### PROPERTIES & BENEFITS

An elasticising and regenerating blend of vegetable oils, ideal for skin and hair care. Designed to provide tone and well-being to dull and stressed skin, it is particularly suitable for stretch marks and skin prone to localised dryness. This synergy of vegetable oils, carefully designed in our laboratories, enhances the beneficial effects of its ingredients by mixing them in precise concentrations and contains:

- Sweet Almond Oil, rich in fatty acids, vitamins, proteins and minerals, known for its regenerating properties;
- Argan Oil, which helps invigorate the skin with its elasticising properties;
- 100% plant-based Squalane, with emollient and elasticising properties, helping strengthen the skin barrier;
- An active blend of almond, olive, linseed and borage oils, selected for their content of different highly nourishing fatty acids. This blend moisturises the skin without leaving it greasy, ensuring quicker absorption compared to non-activated oil blends. With its elasticising and anti-stretch mark properties, it adds an exceptionally soft and silky touch to the formula.

DERMATOLOGICALLY TESTED

## HOW TO USE

### USE & PRACTICAL ADVICE

Shake before use and avoid applying before sun exposure.

Hair: use as a pre-shampoo treatment for very dry, brittle, frizzy hair, stressed by sun and sea salt. A few drops can also be applied to dry hair for extra shine and softness.

Body: apply with a gentle massage to all areas where the skin appears damaged. It is particularly recommended as a natural remedy for stretch marks, especially those due to pregnancy. It is perfect for sportspeople, as it can be massaged onto legs and arms after physical exertion to help relax muscles and enhance tissue elasticity. It is also ideal for relieving tired legs after standing for long periods.

---

## WARNING

Store in a cool, dry place, away from heat sources and direct light. Avoid release to the environment. Any sediment at the bottom of the bottle is due to the natural origin of the ingredients, so shake before use. Keep out of reach of children under 3 years of age. Avoid contact with eyes and mucous membranes. In case of allergic reactions, discontinue use immediately and consult a doctor. Application before sun exposure is not recommended, as it is photosensitising. Excessive application may be comedogenic. For external use only. Do not ingest.
