HOW TO USE

Use pure, diluted in water, or mixed with other products depending on the desired effect and the properties of each blend.

WARNING

Keep out of reach of children under 3 years of age. Store at room temperature, in a dry place, away from heat sources, direct light, and cold areas. If the product solidifies, warm it gently in a water bath without affecting its properties. Avoid release to the environment. Avoid use during pregnancy (especially in the first trimester) and breastfeeding. Avoid contact with eyes and mucous membranes. Before use, perform a patch test on the inside of the elbow. In case of allergic reactions, discontinue use immediately and consult a doctor. Avoid application before sun exposure, as it may cause photosensitivity. Excessive use may be comedogenic. For external use only. Do not ingest. Any slight variation in colour is a sign of the natural origin of the ingredients and does not affect product quality. The presence of sediment at the bottom of the bottle and the characteristic odour are due to the natural origin of the ingredients, so shake before use. Do not spray inside steam inhalers or nebulisers, as this may cause obstruction of the device. Not recommended in cases of convulsive disorders, epilepsy, hyperthyroidism or allergies to essential oils. Avoid prolonged use.
