DESCRIPTION

PROPERTIES & BENEFITS

An antibacterial and antiseptic blend of vegetable oils, ideal to nourish the skin and protect it from external agents. This synergy vegetable of oils, carefully designed in our laboratories, enhances the beneficial effects of its ingredients by mixing them in precise concentrations and contains:

- Neem Oil, with antiviral, antibacterial, antiparasitic, antiseptic and antifungal properties, useful for relieving mycosis and skin fungi;
- Tea Tree oil, well-known for its numerous antibacterial and anti-inflammatory properties, particularly effective against acne and blemishes;
- An antibacterial active complex composed of Copaiba Balsam, Olive Oil, Babassu Oil, Manuka Oil and Blackcurrant Oil, which synergistically purify the skin, protect it from pathogens, strengthen the skin barrier and boost skin's defences against infections;
- An active blend of almond, olive, linseed and borage oils, selected for their content of different highly nourishing

fatty acids. This blend moisturises the skin without leaving it greasy, ensuring quicker absorption compared to non-activated oil blends. With its elasticising and anti-stretch mark properties, it adds an exceptionally soft and silky touch to the formula.

DERMATOLOGICALLY TESTED

CPNP REFERENCE: 4829489

HOW TO USE

USE & PRACTICAL ADVICE

Shake before use and avoid applying before sun exposure.

Face & Body: apply a few drops to skin affected by psoriasis, mycosis, dermatitis, eczema, warts and acne to promote tissue healing. In case of cold sores, apply 2-3 drops of oil on the blisters and repeat several times a day until they disappear. In the case of mycosis, apply a few drops to the affected area daily, until completely healed. It is recommended to apply 2 or 3 drops on skin blemishes, such as boils or pimples, for a sebum-regulating action. Do not apply to damaged skin.

Hair: add a few drops to your usual shampoo for an effective anti-dandruff, antibacterial and anti-lice action.

WARNING

Keep out of reach of children under 3 years of age. Store at room temperature, in a dry place and away from heat sources, direct light, and cold areas, as Neem oil tends to solidify. If the product hardens, it can be gently heated in a water bath without altering its characteristics. Any sediment at the bottom of the bottle and its characteristic odour are due to the natural origin of the ingredients. Shake well before use. Avoid release to the environment. Avoid use during pregnancy (especially in the first 3 months) and breastfeeding. Avoid contact with eyes and mucous membranes. Perform a patch test on the inner elbow before use. In case of allergic reactions, discontinue use immediately and consult a doctor. Application before sun exposure is not recommended, as it is photosensitising. Excessive application may be comedogenic. For external use only. Do not ingest.

INGREDIENTS (INCI)

Melia azadirachta seed oil, melaleuca alternifolia oil, ribes nigrum seed oil, orbignya oleifera seed oil, leptospermum scoparium branch/leaf oil, copaifera officinalis resin, olea europaea fruit oil, almond/borage/linseed/olive acids/glycerides, tocopherol, helianthus annuus seed oil, limonene.

PAO DEADLINE

12 Months
