DESCRIPTION

PROPERTIES AND BENEFITS

Blend of essential oils with an immunostimulating action that helps boost the immune system and increases its ability to fight infections and diseases.

This synergy of essential oils, formulated in our laboratories, enhances their respective beneficial effects by blending them in precise concentrations, which helps boost the immune system to deal with seasonal illnesses. Eucalyptus essential oil stands out for its decongestant, antiseptic and invigorating properties; Lavender essential oil performs a soothing, calming and purifying action; lastly, Lemon essential oil is able to counteract the first flu symptoms.

DERMATOLOGICALLY TESTED

CPNP REFERENCE: 4828543

HOW TO USE

USE AND PRACTICAL ADVICE

Topical use: for a general anti-inflammatory and disinfectant action, rub 5-6 drops directly onto the sole of the foot, which spreads the benefits of the essential oil. In case of sinusitis and headaches, apply a few drops onto the forehead.

Invigorating bath solution: add 10 drops to the bathtub water, emulsify and soak in for 10 minutes to help relieve muscle and joint pain related to flu symptoms.

Environmental diffusion: add 6-7 drops to 300 ml of water in the tray of the radiator. Alternatively, for more instantaneous benefits, pour 2-3 drops onto a handkerchief to draw in the balsamic vapours.

WARNING

Contraindicated during pregnancy, breastfeeding and in children under 3 years of age. Not recommended in cases of convulsive disorders, epilepsy, hyperthyroidism or allergies to essential oils. Avoid prolonged use; do not use within 24 hours before sun exposure as it is photosensitising. For external use only. Do not ingest. Avoid contact with eyes and mucous membranes. If in eyes, immediately rinse with water and get medical attention, if necessary. Before use, perform a test on the crook of the elbow to check the tolerability of the oil. Do not spray inside steam inhalers or nebulisers, to avoid clogging the machinery. Store in a cool, dry place away from heat sources. Any slight colour variation is an indication of the naturalness of the components and does not affect the quality of the product. Do not release into the environment.
