DESCRIPTION

Peptilux anti-wrinkle "filler effect" night face serum provides deep moisture and is absorbed effectively by the skin. Its special formula contains "ALPHADERM™", an innovative peptide complex designed to reduce the signs of ageing: its dipeptide has an anti-ageing effect and therefore is particularly effective against expression lines as it deeply and visibly smoothes out wrinkles after just 4 weeks of application and helps release facial tension. Moreover, if used earlier in time, it contributes to delaying the appearance of wrinkles. Its effectiveness is guaranteed by the extraordinary balanced blend of hyaluronic acids, which combine the strong moisturizing, film forming and soothing effect of the high pm fractions with the anti-ageing effect of the low pm ones, significantly reducing skin roughness and stimulating the expression of genes involved in maintaining skin integrity. DERMATOLOGICALLY TESTED

HOW TO USE

Apply in the evening to your thoroughly cleansed face.

WARNING

If in eyes, wash immediately with water and get medical attention, if necessary. Avoid release to the environment. Avoid any accidental damage or incorrect handling that might cause product leakage. Store in a cool, dry place away from heat.

INGREDIENTS (INCI)

ALPHADERM™: Aqua, 1,2-hexanediol, glycerin, sodium hyaluronate, dipeptide diaminobutyroyl benzylamide diacetate, citric acid.

PAO DEADLINE

6 Months
